

cleaning checklist

the fridge

✓ TASKS

- ☐ Open fridge door and take note of what the temperature is
- ☐ Turn the inside temperature control to 'off', to save electricity
- ☐ Throw away anything that is out of date or spoiled
- ☐ Move all other items to bench, grouping like products together
- ☐ Take out all removable parts and wash in warm soapy water
- ☐ Wipe the inside of the fridge with fridge cleaner and cloth
- ☐ When dry, place all shelves into the fridge
- ☐ Return food items back into fridge, placing similar food items together
- ☐ If needed, place a container of bicarb of soda in fridge to eliminate odours
- ☐ Turn temperature control back to recommended setting. Close fridge door.
- ☐ Wipe down the outside of the fridge to clean away sticky spots and fingerprints
